RESOLUTION RESPECTING
CAPITAL CONTRIBUTIONS FOR
THE FISCAL YEAR ENDING
MARCH 31, 2018

Chair Bob Barrett moved for adoption of this resolution that
WHEREAS:

1. Mililani Town Association (the "Association") is a homeowners association that has elected to be treated as a qualifying homeowners association under Section 528 of the Internal Revenue Code of 1986, and, as a result, the membership dues, fees, and assessments collected by the Association during any tax year for which such election is in effect are treated as "exempt function income" and not subject to tax.
2. Aside from collecting membership assessments, the Association has also historically engaged in activities that provide "alternate sources of income" that are taxable, including leasing certain common areas for cell

phone antennae. The Association has used these alternate sources of income in order to defray part of the Association's operating expenses and thereby minimize the assessments charged members.

3. The quarterly amounts assessed the homeowners/members of Association include both amounts estimated to cover operating expenses and capital contributions to fund capital reserves for the repair, replacement, and improvement of the common areas and facilities of the Association.

4. As a historical matter, to the extent that, after application of the Association's alternate sources of income to pay operating expenses, the aggregate amount of the quarterly assessments collected from members to pay operating expenses might exceed the Association's actual operating expenses in the current and the next succeeding year, the members of the Association have by resolution, in advance of each year, designated that any such excess amount would also constitute and be treated as additional contributions to the Association's capital reserves.

5. With regard to the funds contributed to the Association's reserves, the Board has established certain special accounts and adopted certain special rules and restrictions limiting expenditure of the Association's capital reserves only for repairs, replacements, and capital improvements; and the Board has deposited and holds the members' capital contributions in such special segregated reserve accounts.

NOW, THEREFORE, IN THE FOREGOING CIRCUMSTANCES, BE IT RESOLVED THAT:

A. The members acknowledge that, as in prior years, the quarterly membership assessments for the fiscal year ending March 31, 2018, include amounts allocable to the Association's capital reserves. The members hereby resolve to contribute such amounts as capital contributions to the capital reserves of the Association. In aggregate, based on the annual budget for the upcoming fiscal year, the members hereby resolve to contribute a minimum of \$894,478 to the capital reserves of the Association out of the members' quarterly membership assessments, which amount shall be deposited and held in Association's special segregated bank accounts for the Association's capital reserves (currently at Bank of Hawaii) and held by the Board in accordance with the rules and restrictions governing the Association's capital reserve funds.

B. The members further resolve that, to the extent that the remaining amount of the membership assessments collected in the fiscal year ended March 31, 2018, turn out to exceed the net expenses of providing membership services for such fiscal year (after application of any alternate sources of income), any such excess shall also be contributed to the Association's capital reserves and shall be treated as special assessments and capital contributions to the Association's capital reserves, and shall also be deposited into one of the Association's special segregated bank accounts for the Association's capital reserves and also held in accordance with the rules and restrictions governing the Association's capital reserve funds.

Since there were no objections, the resolution was adopted.
