PRESIDENT'S MESSAGE

THEN (2018)

NOW (2021)

I went for a walk a while ago through our Ravine Park Orchard. Did you know we planted an Orchard along the walking path there three years ago? The concept for this was to have our own community garden and when the trees bear fruit, people can come and take what they can use. I always thought this was a fantastic idea and another great way to serve our members. It's great to see a plan literally come to fruition!

If you haven't seen it, go and take a walk and a closer look. I was very pleased to see the progress. The mango trees are bearing fruit, the plum and lychee trees flowering, the guava and mountain apple trees are growing nicely. I think about the gift we are leaving the people of Mililani. Imagine the future of mature trees and the benefits to our community. Mililani is not like any other community in Hawaii, not even close. Our people, our homes and the connection your homeowner's association has to you, is special. We have fantastic amenities, we have a diligent and hardworking staff and we have great family-oriented events, just to name a few.

I'm really looking forward to returning to normal and get our events and programs going again, but in the meantime, take a nice stroll through Ravine Park and see some things that will directly benefit everyone and are not affected by the pandemic.

Aloha,

Bob Barrett

MTA COMMON AREA TREES

Mililani Town is blessed with an abundance of trees in its common areas. Several different species of trees highlight the landscape throughout Mililani Town and as a result, Mililani Town was recently awarded a Tree City USA certification.

Maintaining trees in an urban environment requires special practices, especially with well established trees. Pruning practices, root development, replanting, etc. must all be taken into consideration when maintaining urban trees. Mililani Town has an abundance of mature trees. Certain trees originally planted adjacent to sidewalks have lifted slabs creating potential trip hazards. Removing the roots to eliminate the trip hazard will jeopardize the stability of the tree. Roots have two basic functions; stability and nutrient uptake. When roots are removed close to the trunk of a mature tree it can increase the chance of a complete failure. To eliminate this potential hazard, complete removal and replanting is a practical option.

The Norfolk pines that Mililani is well known for are able to grow in a wide range of soil conditions. They have a shallow root system that may damage sidewalks and foundations when planted too close. This condition can be seen at the corner of Kaapeha and Meheula parkway in Mililani Mauka. As the trees matured its roots lifted the walkway creating a potential trip hazard. Although root pruning is a common arboricultural practice, trimming anchoring roots too close to the trunk may contribute to the tree's ultimate failure. The complete removal and replanting of the tree is a better option.

MTA will remove the pines in October 2021 and replant the corner with trees and shrubs better suited given the limited planting space. Replanting Norfolk Pines in the same area will create future issues. MTA will consider other species of trees that will add to the overall Mililani experience and still maintain the aesthetics of the corner planter.

MTA is dedicated maintaining the Landscaping of Mililani Town, and its trees play an important role in its design intent.

MONTHLY COVENANTS INSPECTIONS

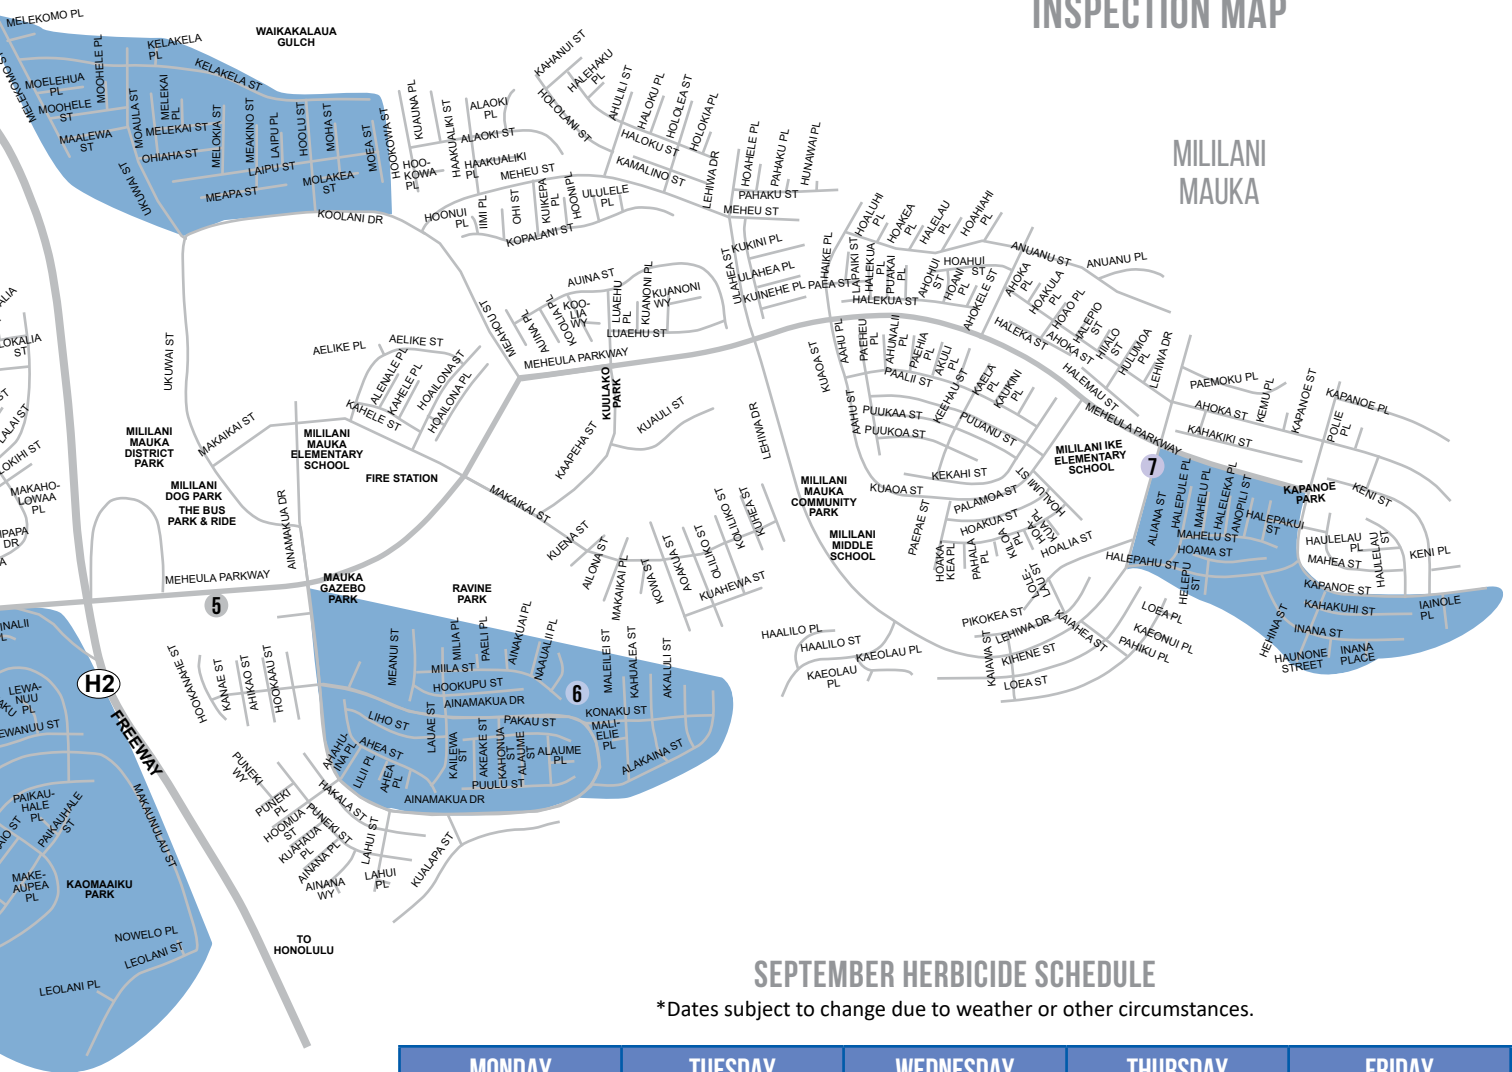

In an effort to be proactive with our homeowners, MTA wants to inform everyone of the areas that are being inspected each month. The areas highlighted on this map are the areas scheduled for routine Covenant inspections for this month.

We hope to reduce the amount of violation letters we have to send out, by giving you an advance notice of where we will be. We are not trying to do our inspections in secret. We may be seen in an area that is NOT scheduled for a routine inspection. The reason is usually because we have a re-inspection, a complaint or a design project inspection in that area. Please remember, if you have any questions, please feel free to ask. We are very friendly and very willing to talk to you.

ARE TRUST SERVICES *right for you?*

If you're extremely busy with your career and family and you've accumulated a fair amount of assets, you might be concerned about a variety of issues related to financial management and legacy planning. Specifically, you might think you don't have the time or expertise to deal with these matters effectively. If this is the case, you might want to consider using a trust company.

You might think you need to have a large estate or millions of dollars to benefit from working with a trust company, but that's not the case. And if you're not familiar with what a trust company can do, you might be surprised at all the services it can provide, including the following:

- **Wealth management** – Typically, when working with a trust company, you'll receive investment management designed to help you achieve various goals, such as a comfortable retirement and college for your children. The company can manage retirement accounts, monitor investments and disburse funds, make changes as needed and ensure compliance with government reporting for contributions, withdrawals and rollovers. While different companies operate in different ways, you may have an arrangement in which you work with a personal financial advisor and a separate portfolio manager.

- **Financial management during incapacity** – If you were to become incapacitated and couldn't make financial decisions, a trust company can step in, giving you peace of mind from knowing that your financial assets will be managed by a team of professionals, helping protect you and your family from potentially dire consequences.

- **Trust administration** – A trust company can perform several essential tasks related to administering your trust. The company can act as trustee for a trust you've established, such as a revocable living trust, which can allow your estate to avoid probate while providing you with great control over how your assets will be distributed at your passing. Alternatively, the trust company can work alongside an individual you've designated to execute the terms of a trust. If your selected trustee resigns or becomes unable to make decisions, the trust company can serve as successor trustee. When it's time to settle your estate, the trust company can handle the valuation, dispersion and re-titling of assets, pay off any debts and expenses, and complete any tax returns related to your estate.

- **Bill payment and recordkeeping** – A trust company can keep up with all the trust's bills (household maintenance, medical bills, etc.) and provide statements summarizing receipts, disbursements and the value of assets within the trust.

In addition to providing these practical services, a trust company may benefit you in a more intangible way. It's unfortunate but true that, in many families, dividing up assets can cause conflict and bitter feelings. But when a trust company serves as trustee, it impartially administers distribution of the assets based on the instructions you've provided in the trust – helping minimize family disputes over inheritances. If you ever feel like the complexities of wealth management and trust administration are getting to be more than you can handle – or perhaps more than you want to handle – consider contacting a trust company. You might find that it can make your life a lot easier.
